

Clipping list

D 8.5 Media clippings of articles/interviews published in technical magazines and media

June 2017

Lead Partner: GIZ

Notification: *All business related and personal information compiled will be handled confidential and will only be processed within the BioRES Consortium in accordance with the national data protection requirements and the rules set out by the EU Horizon 2020 Research and Innovation Programme. All persons involved in the elaboration of this feasibility study are asked to comply with these requirements.*

BioRES is funded by the Horizon 2020 Programme of the European Union
under grant agreement No 64599.

1. Introduction

Communication, dissemination and exploitation are crucial in a Horizon2020 coordination and support action like BioRES. Throughout the project duration, BioRES partners have presented the project and individual tools at various events and communicated it using diverse media.

All partners committed themselves to collect press clippings and other media reports and provide them to the Project Coordinator for collection and documentation. This report includes an overview of all instances used by the project to promote BioRES. All articles are available upon request, as far as this is not conflicting with any third parties copyright.

2. List of published articles
